or telephone 020 75921856.

IF YOU WANT TO ACHIEVE
GREATNESS, STOP ASKING
FOR PERMISSION.

Fr Jack

What an "exciting week!"

What with COVID, COP26, the SYNOD and many more things. Is it any wonder there is global warming? A lot of hot air, or am I being cynical? Let me know your thoughts, I mean that, I would love to have a few comments or texts.

Thank God for Sunday and mass. Today's readings are very appropriate. Two words come to mind.....

GENEROSITY and SIMPLICITY.

A little bit of this from everybody could improve much in the world. It's interesting that the woman in the first reading and the second reading is a widow. We have many widows in the parish.

Ladies, do you have a hidden secret, or a direct line to God? Please come back to me and give me/us the answer for next week.

COP26 climate summit - The basics

Climate change is one of the world's most pressing problems.

Governments must promise more ambitious cuts in warming gases if we are to prevent greater global temperature rises.

The summit in Glasgow is where change could happen.

You need to watch for the promises made by the world's biggest polluters, like the US and China, and whether poorer countries are getting the support they need.

All our lives will change.

Decisions made here could impact our jobs, how we heat our homes, what we eat and how we travel.

MONTH OF THE HOLY SOULS

On Wednesday the 10th of November at 11am, there will be a mass for all deceased clergy of the diocese. You are cordially invited.

The following Sunday we will celebrate all the masses for the deceased parishioners and clergy of this parish. Again your prayers are appreciated.

If anyone wishes to do a billboard with photos of their deceased, they would be welcome and we could place it on the sanctuary or the back of the church.
