FR JACK

If I put good food into my mouth and eat it the chances are that I will be strong and healthy. The food, rice, fish, chicken is transformed in me and I continue to grow. How I do not know. My body is designed to work in this way. Do the right things and the right things happen to you. Put good seed into good soil and while you live and sleep they grow, some grow very big. God takes care of the food and the soil and supernatural God does the same thing. I say my prayers, I go to confession, I am kind to people, I am generous, I go to Mass, I go to communion and I become what I receive. I become the body of Christ. When I am generous with God and others, I live in peace. God is always on the alert, **trust God.**

God comes to us not through the doors of feeling but through the doors of faith.
