Pope Francis

When we resort to violence, we show that we no longer know anything about God, who is our Father, or even about others, who are our brothers and sisters. We lose sight of why we are in the world and even end up committing senseless acts of cruelty. We see this in the folly of war, where Christ is crucified yet another time. Christ is once more nailed to the Cross in mothers who mourn the unjust death of sons and husbands. He is crucified in refugees who flee from bombs with children in their arms. He is crucified in the elderly left alone to die; in young people deprived of a future; in soldiers sent to kill their brothers and sisters. Christ is being crucified there, today.
