Fr Jack

Creation is probably the first bible ever written. Not so much in words but in beauty. The Father just wanted us to have a beautiful home. Ever since He has been giving to us. He gave us his written word in the Bible we are familiar with. Past few weeks we have been celebrating his Resurrection and Pentecost, his big effort to be with us always. And today He gives us Himself in the Eucharist, the Bread of Life, the food that sustains and strengthens us. Something we commit to every time we take the Eucharist. *"He who eats my flesh and drinks my blood will live forever."* Truly we are the most blessed of all people. Our failure to say thanks is what makes us all miserable. Being ungrateful for such magnanimity. Receive the Eucharist regular and often and build up your reserve of LOVE. Is it any wonder St Augustine said, - *"My heart is restless until it rests in thee."*

Magnificent Humanity 9 – Pope Leo

In the abstract, technology in and of itself is not a solution to humanities problems, just as, in and of its self, it is not inherently evil. In practice, however, technology is never neutral because it takes on the characteristics of those who devise it, finance it, regulate it and use it. Therefore, the primary choice is not between "yes" or "no" to technology but rather between constructing Bable or rebuilding Jerusalem: between the power that claims to dominate the heavens and a people who work together in the presence of God to rebuild the walls of fraternal co-existence.

Fr Boniface

This week I am going away for retreat. Recharge my heart and pray for you all. But don't panic, Fr Boniface will take care of all of you.. You take care of him and make him feel at home.

MISSION APPEAL

We welcome Fr David Goodill OP who is making an appeal today for their missions in Jamaica and Grenada. The Dominicans run parishes on both islands and are involved in a wide range of works, including service to some of the poorest communities in Kingston, Jamaica. We thank you in advance for your generosity.
